

## PC Retardant Masterbatch MB-PC10C

Inovia MB-PC10C is a master-batch of Inovia DR-S15 with 10% active component. It can afford PC plastics UL 94 V0 at 0.1~1.6mm. At the same time, the high transparency of polycarbonate is not affected. This product shows greater flowability and processability.

### Physical Data

Item	Data
Retardant Loading	10wt.%
Appearance	Transparent pellet

### Recommended Usage

MB-PC10C Loading Level	UL 94 Rating
20~50%	V0@0.1~1.6mm

### Processing

MB-PC10C needs to be dried under high vacuum at 100°C for 3 hours. The modification processing temperature can be about 20°C lower than that for the virgin resin.

### Packaging

25kg/bag. Samples can be packed as required.

\*The data recommended in this document can be used as a reference for various purposes. There will also be some amendments along with new technical improvements. Therefore, when designing the product, the use environment and structure of the product should be fully considered, and whether the product has any problems should be judged by the design company itself.
